a. Screenshot Hasil

Penjelasan :

Program Flutter yang dibuat berhasil menampilkan informasi mengenai mesin RB26DETT dengan antarmuka yang modern menggunakan tema warna kuning dan hitam. Aplikasi memanfaatkan berbagai widget Material seperti AppBar, Container, GridView, Card, BottomNavigationBar, FloatingActionButton, dan SnackBar untuk menyajikan informasi secara menarik dan interaktif. Tab Spesifikasi digunakan untuk menampilkan data teknis mesin RB26DETT, sedangkan tab Mobil menampilkan daftar kendaraan yang menggunakan mesin tersebut. Dengan demikian, program ini menunjukkan penerapan dasar widget Material Flutter dalam membangun aplikasi informasi yang terstruktur, responsif, dan mudah digunakan.
